Who We Are at UVM

12,400 Students, Total:

- 10,461 Undergraduates
- 1,490 Graduate Students
- 452 Medical Students (with separate med lib)
- 103 Undergraduate Majors
- Budget for Books: ~ \$800,000

Collection Development Strategies

- Traditional Collection Development involves *Just in Case* Purchasing: Buy Books in Case of future need
- Done by Selector Librarians, Vendor Profiles, Faculty Selectors, Other “Experts” in Subject Selection

Collection Development Strategies

- Libraries Now Explore *Just in Time* Collecting
- Patron-Driven Acquisition
 - Print on Demand
 - Order on Demand
 - E-book Purchase Only at Behest of Patron Need

Why PDA? Why Now In Particular?

Usage, Usage, Usage!

- The Pittsburgh Study from 1973 (Allen Kent) showed that 40% of books at U of Pittsburgh did not circulate even after 7 years on shelf
- Studies ever since show the same pattern
- UVM usage study in 2006 showed (surprise!) 40% of books did not circulate

Late Breaking: Cornell Usage Study Results are In

- 55% of all Cornell's books published since 1990 never circulated
- Even accounting for foreign language books, 40% of books in English published since 1990 have never circulated.
- "Precious resources are being spent to purchase, house, and preserve these books, but to what extent should this be regarded as misspent funds and to what extent as investment in a strategic reserve?"

Money Appears Not to Grow on Trees

THE UNIVERSITY OF VERMONT

Libraries

Ask. Discover. Create.

The University of Vermont Weighed Options. How to Proceed?

The Year was 2007...

- **Print On Demand** would require:
 - Electronic files of books
 - High resolution, high speed printing
 - If printed outside library, uniting printed book with patron
- **E-books Chosen by Patrons** would require
 - That such a model existed in a viable way
 - Most available e-books still only available via just-in-case model
 - Not a great reception of NetLibrary's initial product

Order on Demand for Print Books With YBP

YBP Agrees to Partner with UVM for Pilot of OOD

They Invent Methods and Procedures to Enable UVM Libraries to:

- **Load MARC Records into Voyager for Books We Don't Yet Own From Three Major Publishers Based on Slips**
 - Wiley
 - Palgrave Macmillan
 - Oxford University Press
- **Enable Us to Rush-Order Titles from YBP (or Other Sources)**
- **Goal: To Get Book into Patron's Hands 3 Working Days from Order**

Libraries

Ask. Discover. Create.

Our Findings So Far: Numbers of Books

- Total number of books ordered On Demand since inception (12/07): 1,536
- Number of books ordered On Demand, FY10: 590
- Number of books we WOULD HAVE received on our profile (books received automatically), FY10: 1,502
- Number of books we did NOT receive automatically: 912 (Give or take 90 linear feet of shelf space not used)

Our Findings So Far, Cont. Usage

- Average circulation of books ordered On Demand since inception: 2.0
- Average circulation of books received over same period in the traditional way ("just in case"): 1.18

Our Findings So Far, Cont. The Money

- Money we spent on Order on Demand since inception: \$ 96,797.41
- Money we spent on OOD, FY10: \$ 37,971.86
- Money we would have spent if no Order on Demand, FY10: \$88,604.60
- Money saved because of OOD, FY10: \$50,632.74

The Next Chapter: PDA for E-Books

Intensive commitment from YBP and EBL (Ebook Library) to create the means to integrate PDA with our Profile

My Ideal:

- Provide records for ebooks whenever available.
- Continue to load records for print books when ebooks not available
- De-duplicate records so only one record, either for print or ebook
- Patron triggers short-term loan or purchase for ebooks
- Patron continues to rush-order print when no ebook

PDA Pilot for E-books Started Feb 18, 2011

From YBP:

- YBP provides records for ebooks for our same 3 publishers (Wiley, Palgrave Macmillan, Oxford) used in Order on Demand project whenever they are available
- Continue to provide records for print titles when ebooks are not published simultaneously with print

Billing goes through YBP, so financial workflow is largely unchanged

PDA Pilot for E-books Started Feb 18, 2011, cont.

From EBL:

- Direct links from records to full-text ebooks for Wiley, Palgrave Macmillan, Oxford (when available)
- All functionality of EBL's platform, seamless authentication with our EZProxy, Shibboleth
- Marketing materials to help patrons negotiate new ebook system
- They pass billing through YBP

PDA Pilot for E-books The Story So Far

- 202 Sessions looking at ebooks
- 12 short-term loans
- 0 automatic purchases (3rd click triggers purchase)
