Summary: "Blue is the Warmest Color is a graphic novel about growing up, falling in love, and coming out. Clementine, a high school student, has an average life: she has friends, family, and the romantic attention of the boys in her school. When her openly gay best friend takes her out on the town, she wanders into a lesbian bar where she encounters Emma: a punkish, confident girl with blue hair. Their attraction is instant and electric, and Clementine finds herself in a relationship that will test her friends, parents, and her own ideas about herself and her identity"--Provided by publisher.

Open Source = Flexible

- Responsive systems play well with evolving standards

Koha is great, but its Community is even better

- Learn from each other
- Work together to improve library systems
- Lots of ways to participate
